

MAHARASHTRA POLICE
FIRST INFORMATION REPORT

FIR No.: 0847/2024 Police Station: Wadala
District: Mumbai City Under Sections: BNS Section 318 (Cheating)
Date of Registration: 14 July 2024
Place of Occurrence: Wadala Godown, Mumbai

On 14 July 2024, information was received regarding a suspected organised financial-fraud operation functioning through cash handlers, mule bank accounts, and coordinated mobile communication. Initial verification identified suspicious movement of funds through multiple recently opened accounts, followed by rapid dispersal of funds into smaller accounts.

The complaint names Victor Kannan, Urvashi Ray, Suresh Bhagat, Alka Wable, Mohan Verma, Naresh Gowda, and several unidentified associates. Call-detail analysis indicates frequent short-duration contact between the named persons during periods of fund movement. Financial records show repeated transactions through intermediary settlement accounts and multiple beneficiary accounts.

Preliminary intelligence suggests that the group may be using a layered operating structure. Victor Kannan is suspected of coordinating the principal activity, while other individuals appear to manage communication, cash movement, account access, and local facilitation.

Evidence collected includes FIR text, call-detail records, financial transaction records, and one suspect photograph.

Investigating Officer: Inspector Aarav Deshmukh

Risk Level: Critical

Primary Entity: Victor Kannan
