Place of Occurrence: Kurla Service Lane, Mumbai

On 03 August 2024, a complaint was registered regarding the suspected use of forged address documents for obtaining a mobile connection and opening a digital-payment account. The case initially appeared to concern a local identity-misuse incident with limited financial impact.

The persons named in the complaint are Naresh Gowda and Priya Rastogi. Preliminary document checks identified inconsistencies in the submitted address proof and a mismatch between the declared occupation and transaction activity associated with the account.

Limited call-detail evidence indicates communication between Naresh Gowda and multiple unknown numbers over a short period. No major financial loss is established at this stage. The case is classified as low priority pending further verification.
